PROFILE

As a proactive and detail-oriented Data Analyst, I have honed my skills in data cleaning, modeling, and analysis through comprehensive simulations and practical experiences. Committed to utilizing analytical methodologies to drive strategic decisions, I am looking forward to deploying my skills in a dynamic organization.

EDUCATION

Bachelor of Computer Science Vaagdevi Engineering College	2021 – 2025
Intermidate Sai Shivani Junior College	2019 – 2021
Schooling SPR School of Excellence	2019

SKILLS

Python	C++
HTML	Scikit-Learn
TensorFlow	Pytorch
XGBoost	Keras
Numpy	Pandas
Seaborn	Matplotlib
SQL	Creativity
Team-Building	Adapability
Analysis	Friendliness

HOBBIES

- Playing chess
- Traveling

- Solving math puzzles
- Playing video games

CERTIFICATES

Accenture North America – Project Management Job Simulation

Jan 2025

- Description: Completed project management job simulation to enhance analytical and project management skills relevant to data analyst roles.
- Enhanced strategic thinking by analyzing and interpreting project data to drive decision-making in simulations.

Goldman Sachs – Excel Skills for Business Job Simulation

Jan 2025

- Completed job simulation enhancing Excel skills for data analysis with a focus on real-world business scenarios
- Gained practical experience in data manipulation and visualization using Excel tools

Accenture North America – Data Analytics and Visualization Job Simulation

Dec 2024

- Successfully completed Accenture North America's Data Analytics and Visualization Job Simulation program, showcasing proficiency in advanced analytics techniques.
- Gained hands-on experience in data visualization through the Accenture North America simulation, demonstrating ability to translate data insights into actionable business strategies.

Data Analysis with Python – Freecodecamp

Dec 2024

- Completed a course on Data Analytics with Python, focusing on data cleaning, analysis, and visualization using tools like Pandas and Matplotlib to derive insights from real-world datasets

Quantium – Data Analytics Job Simulation

Dec 2024

I completed a simulation where I prepared data, analyzed customer behavior, and provided commercial insights. I identified trends in transaction data, tested new store layouts, and made data-driven recommendations to support strategic decisions.

INTERSHIPS

Data Analysis with Python Freecode Camp

Dec 2024 – Jan 2025

Accenture

- Completed a simulation focused on advising a hypothetical social media client as a Data Analyst at Accenture
- Cleaned, modelled and analyzed 7 datasets to uncover insights into content trends to inform strategic decisions
- Prepared a PowerPoint deck and video presentation to communicate key insights for the client and internal stakeholders

Data Analyst

Nov 2024 – Dec 2024

Free code camp

- Learned Python, data cleaning, visualization, and analysis.
- Worked with tools like Pandas, Matplotlib, and Scikit-learn.
- Completed projects, including dashboards and predictive models.

- Gained hands-on experience solving real-world data problems.

Data analyst

Nov 2024 - Dec 2024

quantium

- Completed a simulation on data preparation, customer analytics, and commercial insights, analyzing transaction datasets to identify trends.
- Conducted uplift testing on trial store layouts and delivered data-driven recommendations through detailed reports for strategic decision-making.

EXTRACURRICULAR ACTIVITIES

- Actively contribute projects in [GITHUB](#)
- **Nutrition Explorer** : A Python-based web application built with Flask that provides detailed nutritional information about food items
- **DOB-Decode** Web Application Description: Developed a Python-based web application using Flask that decodes the user's date of birth to display personalized information such as age and other details.
Technologies: Flask, HTML/CSS, JavaScript, Vercel
